WORK EXPERIENCE

Software Engineer (Tech Lead) | CICON

London, UK

Two-sided marketplace connecting shoe owners with professional cobblers.

May 2024 – Present

- **Tech Lead in a 3-person team**, setting technical direction, reviewing work, and coordinating delivery across engineering and design.
- **Built and maintain a production Next.js/TypeScript marketplace** spanning checkout, cobbler operations, backend APIs, database models, and internal tools.
- **Designed a 19-state order lifecycle** covering intake, AI analysis, quoting, amendments, shipping, repair, and completion.
- **Owned Stripe Connect payments end-to-end**, including “PaymentIntent” lifecycle, platform fees, coupon handling, and retry-safe payout logic.
- **Built and hardened webhook systems** (Stripe, ShipStation) with validation, idempotent processing, and audit logging.
- Built cobbler (shoe repairer) operations portal with authenticated actions, order management, and SMS/email notifications.
- Handled real-world failure scenarios across payments and shipping, including webhook retries, partial failures, and state inconsistencies, ensuring system correctness.
- **Improved system reliability** through monitoring, alerting, webhook logs, and production fixes across checkout, shipping, and payment flows.
